

DELIVERY REPORT I

Ribeira Brava, November 8, 2023

Location: Cachaço School and surrounding community

On November 8, 2023, the "For Humanity's Sake" organization successfully conducted another humanitarian aid delivery to Cachaço School and the surrounding areas. The delivery included 22 school kits, as well as lanterns for the elderly and individuals without access to electricity at home.

School Kits:

We distributed 22 school kits with the aim of supporting the children of Cachaço School and assisting them in their education. Each school kit contained the following items:

- Notebooks
- Pencils
- Colored pencils
- Pens
- Shoes
- Clothes
- Markers

These school materials were delivered to the students of Cachaço School with the intention of strengthening their access to educational resources and encouraging their academic progress. Education is fundamental to the future development of the community, and these materials are intended to support the students on their learning journey.

Distribution of Lanterns:

In addition to the school kits, we also provided lanterns to elderly individuals and community members who do not have regular access to electricity at home. The lack of electricity can be a significant challenge, especially at night, and the lanterns provided will improve the quality of life for these individuals.

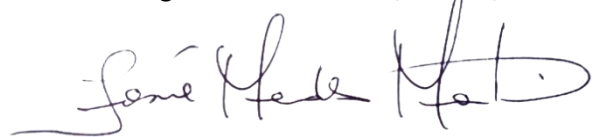

Additionally, a portion of the lanterns was delivered to the local **Elderly Care** Home with the aim of ensuring a backup source of lighting in case of power outages. This will ensure that the residents of the Elderly Care Home have access to adequate lighting, even in emergency situations.

Delivery to the Director of Fajã School:

The remaining school materials were delivered to the director of Fajã School. These materials will be kept at the school and made available as needed to students who require additional support during the academic year. This will ensure that the resources are used efficiently, and no student is left behind.

This aid delivery by "For Humanity's Sake" represents another step towards their commitment to support communities in need. We are deeply grateful to all who came together as advocates, donors, and partners, making actions like this possible.
